

As a member of the community, I cherish the fact that an uplifting Christian station like K-Love is on the air to minister to me and so many others hourly. If K-Love were taken off the air, many, many people would be left without the help that they need to get through the day in a world with such an abundance of negativity being thrown at us from all directions. Other stations feed our minds with sexually explicit music and talk shows, while K-Love inspires us to be loving and forgiving of one another

Thank you, Liz Bacon
